- Paul M Walker
Superfund Coordinator, Region VII

Henry D. Vancleave, Chief
Emergency Response Division (WH-548-C)

I reference your undated memorandum regarding Emergency Action Plans to me requesting we standardize the organization and content of the previously developed Emergency Action Plans. This is to confirm our previous discussion about the development of a single action plan for a site rather than separate action plans for the various response phases. Region VII will not be returning to you separate Emergency Action Plans, but will be incorporating appropriate material into response plans developed for the sites.

Accordingly, our EAPs have been forwarded to our Air and Hazardous Materials Division who has the regional responsibility for prioritizing site investigations and for development of site response plans. Any questions you may have about this development should be directed to Bob Morby (758-3307).

Please do not hesitate to give me a call if you wish to discuss this action further.
